EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Elizabeth A. Niemeyer on 08/09/2004.

In the claims:

Claim 26: Cancelled.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The primary reasons for the indication of the allowability of claims 1, 21, 23, and 24 is the inclusions therein, in combination as currently claimed, of the limitation that a reducing projecting optical system which forms a multi-pole lens field so that the charged particle beams passing through said character aperture form an image on the substrate without forming any crossover between said character aperture and the substrate is neither disclosed nor taught by the cited prior art of record, alone or in combination.

Claims 2-4 and 22 are allowed because they depend directly/indirectly on claim 1 or 21.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
